

Partner Corner

I'm thrilled to take a few minutes to celebrate an incredible healthcare partnership that's spanned over 20 years and now continues to grow with our recent expansion in Houston. HealthTronics has been an amazing partner every single step of the way.

Why did you invest with HealthTronics?

From the early days when I got started, it wasn't just a business move; it was a wise investment in the growth of our practice. HealthTronics has been more than a partner.

How has your partnership been with HealthTronics?

By partnering with HealthTronics in the Houston market, we now have the opportunity to treat more kidney stone patients every week. HealthTronics' scheduling and clinical departments have streamlined our process, and we have become more efficient.

Dr. Alan Hananel, MD

Urology Surgeon
Houston Metro Urology
Houston, TX

How has your relationship expanded over the last 20 years?

Our recent expanded partnership in the Houston area is a testament to the enduring strength of our collaboration. The expansion into this dynamic region marks a new chapter in our shared mission to deliver cutting-edge healthcare solutions. HealthTronics' expertise and commitment to excellence have already begun to make a positive impact on the health and well-being of the Houston community.

Any closing comments?

As we reflect on the past two decades and look forward to a promising future in Houston, I extend my deepest gratitude to HealthTronics. Thank you for being more than a partner – for being a driving force behind transformative healthcare solutions. Here's to the continued success of our partnership and the collective impact we'll make in shaping the future of healthcare.

Thank you, HealthTronics, for 20 years of unwavering partnership and for the exciting journey that lies ahead in Houston.
